Subject: Question for contact

Greg and Kelly,

EPA is pursuing options for a third party review for the mining release in the Upper Animas river. Our OSWER Assistant Administrator is looking for a contact in USACE to discuss the issue.

Who is his counterpart in your office that we can provide direct contact information for?

Kate Garufi

Environmental Engineer

Office of Superfund Remediation and Technology Innovation

Office: 703-603-8827

Cell: 703-517-5857
